In 30 seconds - turn this mess

... Into a clean surface you CAN cook on with your **MAN LAW Grill Topper**

Here is a perfect example of a great use for the **MAN LAW Grill Topper**.

This is a local public BBQ in a lovely local park next to a gorgeous river.

Unfortunately people can't be bothered cleaning it. It's a great service but this is how they leave it for the next person to use.

If you place a piece of aluminium foil over that mess in picture #1, then place the **MAN LAW GRILL TOPPER** on top of the foil - you have a perfectly clean work surface to cook on - see the picture below.

Then, when you're done & the **MAN LAW Grill Topper** is cool - pop the MAN LAW Grill Topper into a plastic bag, take it home & pop it into the dishwasher! (Don't forget to pick up the foil & pop it into the bin on your way out of the park!)

Have fun with the kids, enjoy the weather and the day, have a lovely BBQ & not have to clean someone else's mess!

Man Law - making sure you have a good time!
